Stephanie & Michael Lehnort, General Managers Valsana Hotel

Arosa

Michael Lehnort, General Manager of the Valsana Hotel Arosa: “I had actually only agreed to take over as interim manager for the summer season at the Valsana, but shortly after my arrival in Arosa, I realised that I wanted to take on the flagship project with my wife, Stephanie. It was love at second sight!” Since its opening in December 2017, the boutique hotel has

numbered among Switzerland's most modern hotels in terms of sustainability and design, and now, under the leadership of husband-and-wife team Stephanie and Michael Lehnort, it is set to successfully continue its more than 100-year tradition.

Michael Lehnort (39) was already part of the Tschuggen Hotel Group, serving as Executive Assistant Manager at the Carlton Hotel St. Moritz for almost six years. Born in Germany, he has lived in Switzerland for more than twelve years now, and originally came to Arosa as interim manager for the summer season.

Michael Lehnort has a degree in hotel business administration, and started his career after training as a hotel specialist and working in front-office positions in Germany and the UK. He gained his first experience in Sales & Marketing at the Brenner's Park-Hotel & Spa in Baden-Baden, where he met his wife, Stephanie Lehnort (41), who was working as Director of Events

VALSANA

at Brenner's. Three years later, they moved to Switzerland where Michael took on the role of Director of Sales & Marketing at the Gstaad Palace, while his wife worked as Director of Events at the Parkhotel Vitznau, as Events & Marketing Manager at a car dealership, and as E-Commerce Manager at the Gstaad Palace. As a trained hotel specialist, she then also took on various roles at the Carlton Hotel. The most recent position for the mother of two sons was in the field of Marketing and PR at the Academia Engiadina in Samedan.
